

WOLFA

*The brand for
Quality and Cost-
effective Building*

**Polyester,
with reinforced
fiber-glass
acid-proof
shatter-proof**

**The perfect
feeding trough
for hog barns**

Plastic feeding troughs

WOLFA feeding troughs · Sanitary · Well-tried and tested.

low price

acid-, lye- and
rot-resistant

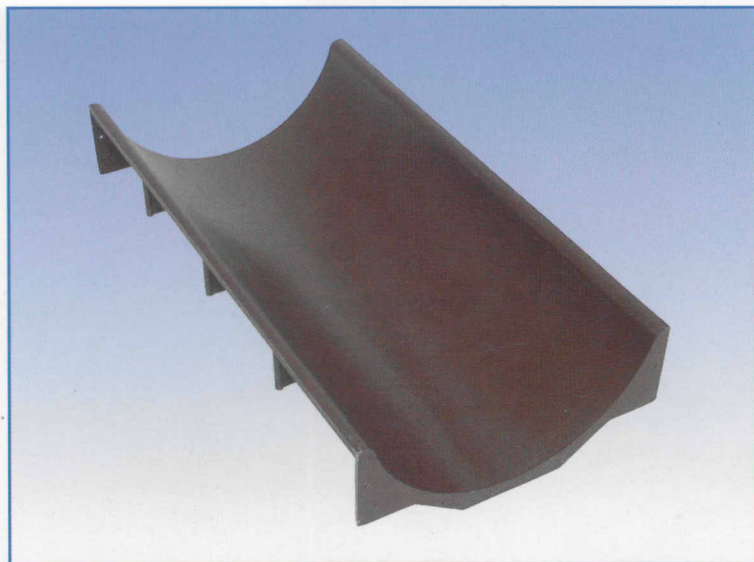

temperature-resistant
perfect for liquid foods

true dimensions, shatter-proof
easy to put down

WOLFEARTH

WOLFA Plastic feeding troughs

WOLFA feeding troughs are made of fiber-glass polyester reinforced, a plastic material with excellent characteristics, which has been proving its worth over many decades

The special advantages:

- cost-effective (optimum price-performance ratio)
- temperature-resistant (no deformation)
- acid-, lye- and rot-resistant (through fiber-glass reinforced plastic)
- clean, smooth and non-porous surface (no settling of germs)
- easy mounting
- true to size, shatter-proof
- secure hold in concrete (through ribs and bars)
- tight joints (4-time joint)

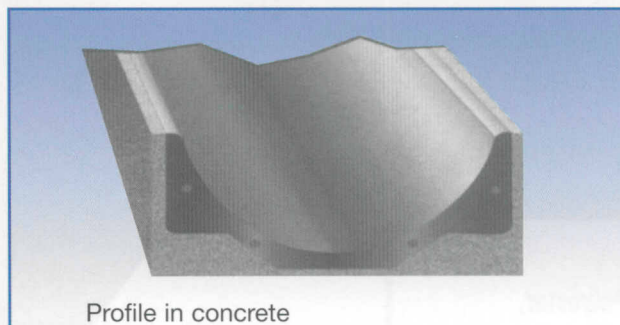

Trough length: 100 cm
Internal height: 17,5 cm

Available widths:
40 cm
47 cm

Partition and end plates:
40 cm und 47 cm

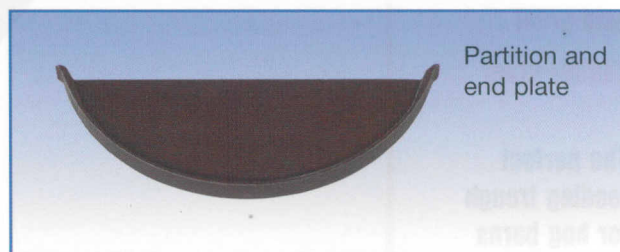

Feeding trough with screwed-on partition and end plates

Profile in concrete

Mounting instructions for the **WOLFA** feeding troughs:

- Prepare concrete bed
- Screw gaskets to feeding troughs (3 pieces)
- Screw on front and end plates (we recommend the application of an adhesive agent)
- Put down in concrete, align and frame to stabilize the bottom ribs in the concrete
- Set the trough sides in concrete after hardening

Partition and end plate
